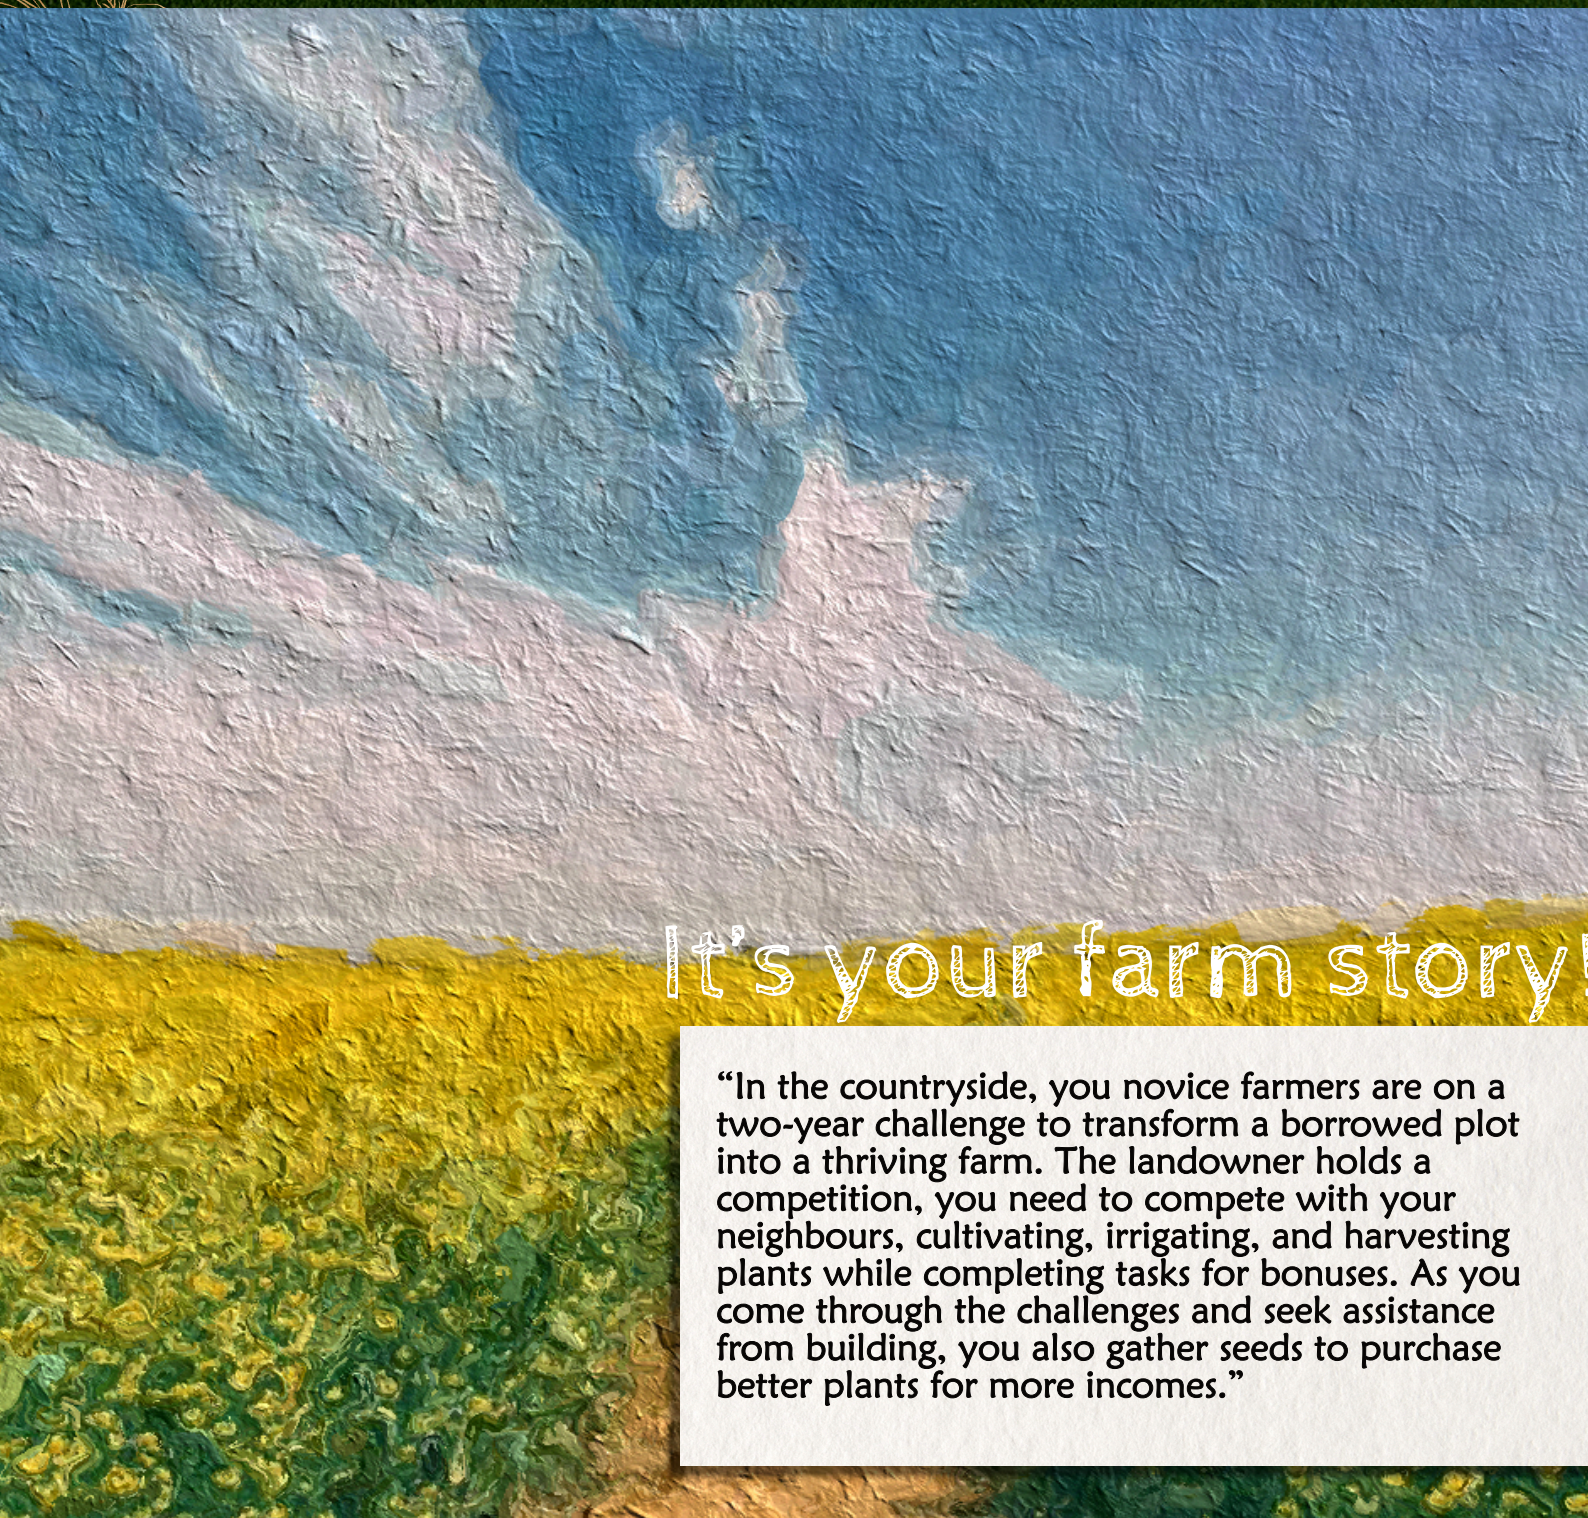
Path to Harvest

Rules Book

By Yao Chen



It's your farm story!

"In the countryside, you novice farmers are on a two-year challenge to transform a borrowed plot into a thriving farm. The landowner holds a competition, you need to compete with your neighbours, cultivating, irrigating, and harvesting plants while completing tasks for bonuses. As you come through the challenges and seek assistance from building, you also gather seeds to purchase better plants for more incomes."

Overview

Introduction

Path to Harvest is a relaxing strategy engine builder game about cultivation and harvest for 3 to 4 people. In this game, you will play as a farmer, carefully choosing an action each turn to cultivate, irrigate and harvest your plants and crops to complete your task and be the best farmer amongst your neighbors. To win the game, you will need to grow plants and complete task cards to gain victory points. Each player will choose one action to either cultivate, irrigate, purchase, or build in their turn. They can also harvest and buy level 2 cards anytime they want.

This game consist of two years, each year consist of 12 rounds. At the start of each year, you will be given a task. To win the game, you have to harvest plants and complete task to get victory points. At the end of these two years, player with the most victory points (VP) wins the game.

Elements of the Game

Plant Card

All plant card has four different types, these types are related to task card requirement.

Fruit

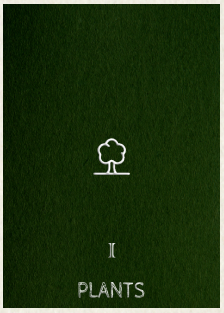
Vegetable

Cereal & Nuts

Spice

Plant card also has two different categories: Level 1 plant card Level 2 plant.

Level 1 Plant



Level 2 Plant

A Planting arrows

Each plant will have at least 1 planting arrows to mark how each of them connected.

B Growth Counter

This counter start from left. When player conduct irrigation action, put 1 water token at the left block. For every irrigation action, move the water token 1 block to the right.

- Mature: when the water token reaches this block, this plant is ready to be harvested.
- Waterlogging: An extra block where you can contiue irrigate this plant if you do not want to harvest it
- Drowning: When water token move to this block, this plant is dead. You have to remove it from your field.
- Generate seed: when the water token reaches this block, get 1 corresponding seed.

C Ability

Only level 1 plant card has ability. The left side is the activation requirement, the right side is its effect. (see clarification for all icon explain)

D Victory points

For level 2 plant card, top right number is the Victory Point it will count additionally when in the warehouse (after it was harvested).

E Seeds requirement

How many and what types of seed player will need to pay to get this plant.

Colourblind Friendly

Apart from colour, evey plant type has a corresponding symbol for people with colourblind.

Vegetable Fruit Cereal and Nuts Spice

There is also a colour blind friendly list in End of the game chapter for all seed requirement for level 2 plant cards.

Building Card

You can get building card by conducting build action.

You have to place building card in the building zone with .

A Building Ability

Each building card has a ability, all ability has permanent effect with no activation requirement.

However, building ability only count as once.

For instance: When using the ability on the right, player can only choose one seed to transform instead of transform all seeds that satisfy the requirement.

Task Card

You will get 3 task cards at the begining of the game, you will select 2 and discard 1. At the start of the second year, you will also get another task card.

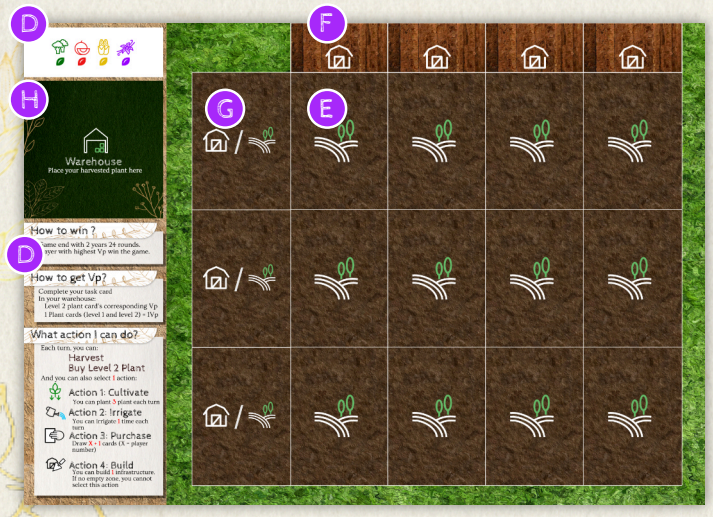
B Victory points

This golden number is the victory point this task card can provide when completing the requirement.

C Task Requirement

The requirement zone shows what types and how many cards player required **in the warehouse** to complete this requirement.

Player Board



D Tips

E Farm Field Block

You can only cultivate your plant in this 3 x 5 grid.

F Building Zone

You can only place an building card in this zone; if there is no empty zone, you cannot use build action.

G Special Block

You can freely choose to use this block as building zone or farm field block.

H Warehouse

Put all your harvested plant in this zone.

Setup

Follow these steps to set up Path to Harvest:

1. Each player get a player board.
2. Shuffle building cards, then draw 5 cards and place them face up aside the deck.
3. Shuffle level 2 plant cards, then draw 5 cards and place them face up aside the deck.
4. Shuffle level 1 plant cards.
5. Shuffle task cards and put it at the centre of the year counter board.
6. Place water tokens and seed tokens where all player can easily reach.
7. Randomly deal 2 level 1 plant cards, 3 task cards to each player. Player will need to select 2 task cards and discard remaining 1. Please do not show your task card to other players. Each player also get 1 irrigation start marker.

Setup example for 3 players

7 Player's Hand

Player Board

Gameplay

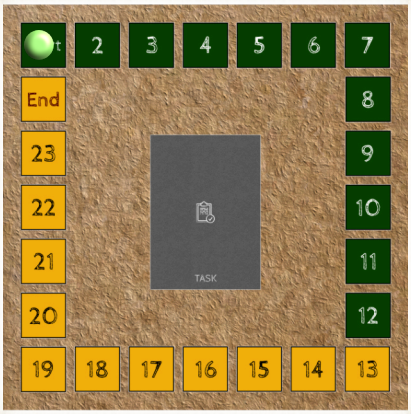
Start

Start the game, put a year counter at the start block of the year counter board. Then, choose a player to start and play their turns in clockwise.

When all player complete their turns, move the counter to mark the finish of a round.

Path to Harvest consist of 2 years, each years consists of 12 rounds.

When finish 2 years, player count their Victory points (see End of the game chapter). Player with highest Victory points win.



When the counter reach 13 , this mark the start of the second year, each player draw 1 task card.

Player Turn

Each turn, you can:

Harvest

You can harvest your plants anytime you want if the water token on the growth marker reach mature. You can also choose not to do so.

Buy Level 2 Plant

If you want, you can pay the required seeds and get 1 revealed level 2 plant card.

After selecting plant card. Refilled the faced up card until there are five face up level 2 plant cards.

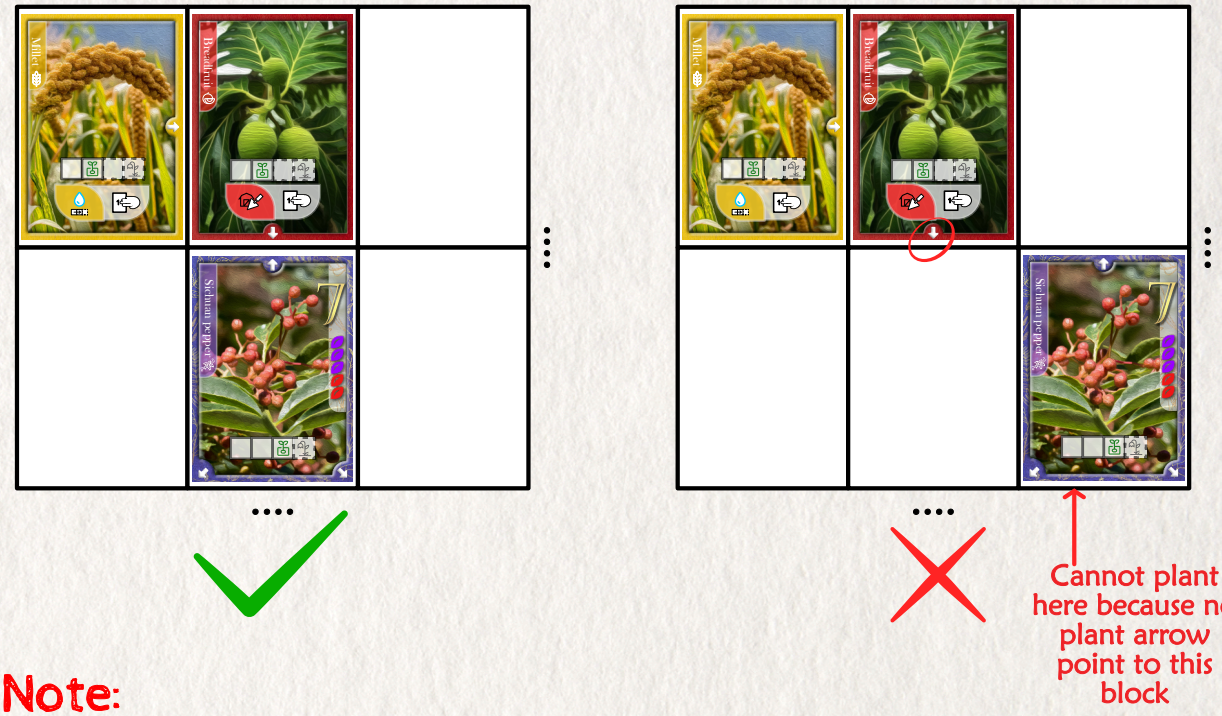
Apart from these, you will also need to choose 1 follow action:

Action 1: Cultivate

When choosing this action, you can plant maximum 3 plants on to your field each turn (can be upgraded by building card).

If there is no plant card on the field, then the first ever plant card can be placed anywhere you want in your farm field.

Then, the next plant card can be only placed to the field blocks where the first plant card's planting arrow pointed to. Same for all following plant cards.



Note:

1. If the plant card on the field do not pointed to any legal farm field block, you have to harvest it first before you can plant any more plant card.

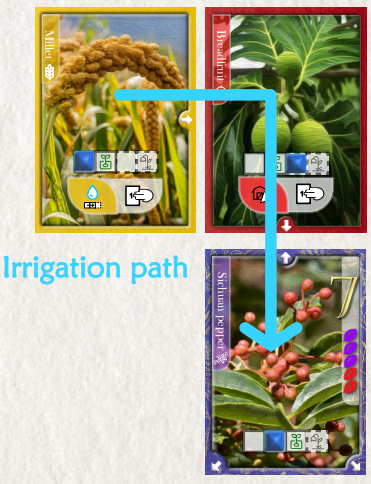
Action 2: Irrigate

If there is no irrigation marker on any of the plant card, you will need to put 1 irrigation marker on 1 plant card as a marker for the start of irrigation

When choosing this action, start from the plant with irrigation marker, follow the planting arrows, put 1 water token on the growth counter for every plant card connected in this irrigation path. If there is already a water token on it, then move the water token 1 block to the right.

If there is no water token

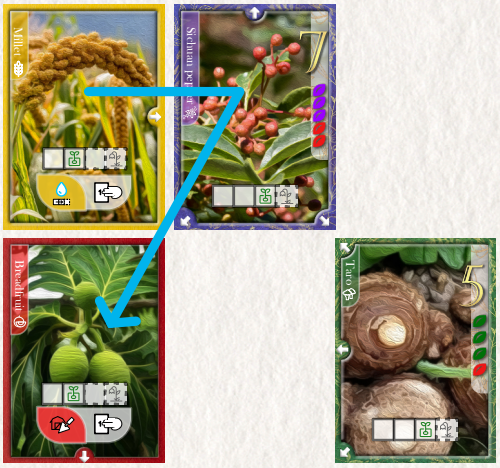
If there is already a water token

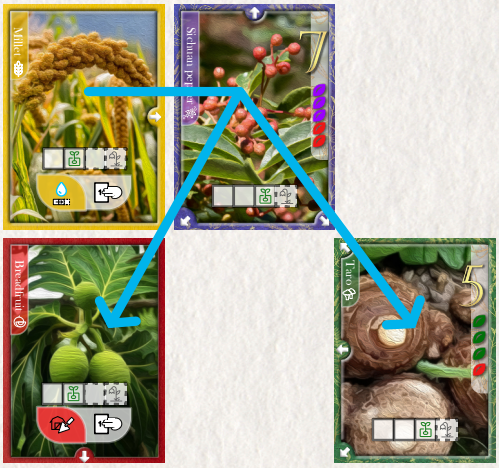


Note:

1. You can only replace the irrigation marker when the plant beneath it is harvested.

2. The irrigation can not diverse or have embranchment.





3. Each plant can only be irrigated **once** each turn.

4. If a plant is disconnected from the irrigation path, you cannot irrigate it separately or activate its ability.

Action 3: Purchase

When choosing this action, you will draw X+1 cards (X equals the number of players). You will select one card from it, then pass it the the next player clockwise. They can also choose one card. After passing around, you will also get the last remaining card.

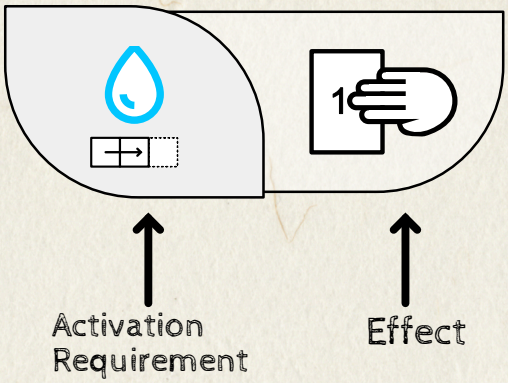
Action 4: Build

When choosing this action, you will select one face up building card or draw one building card from deck. You must put this building card in to one of your building zone. There should always be five faced up building cards. If there is not, refill it with cards from deck.

Note:

If you do not have a available building zone, you cannot choose this action.

Ability



Ability can be activated when:

1. This plant is connected in irrigation path.

2. Its activation requirement are fulfilled.

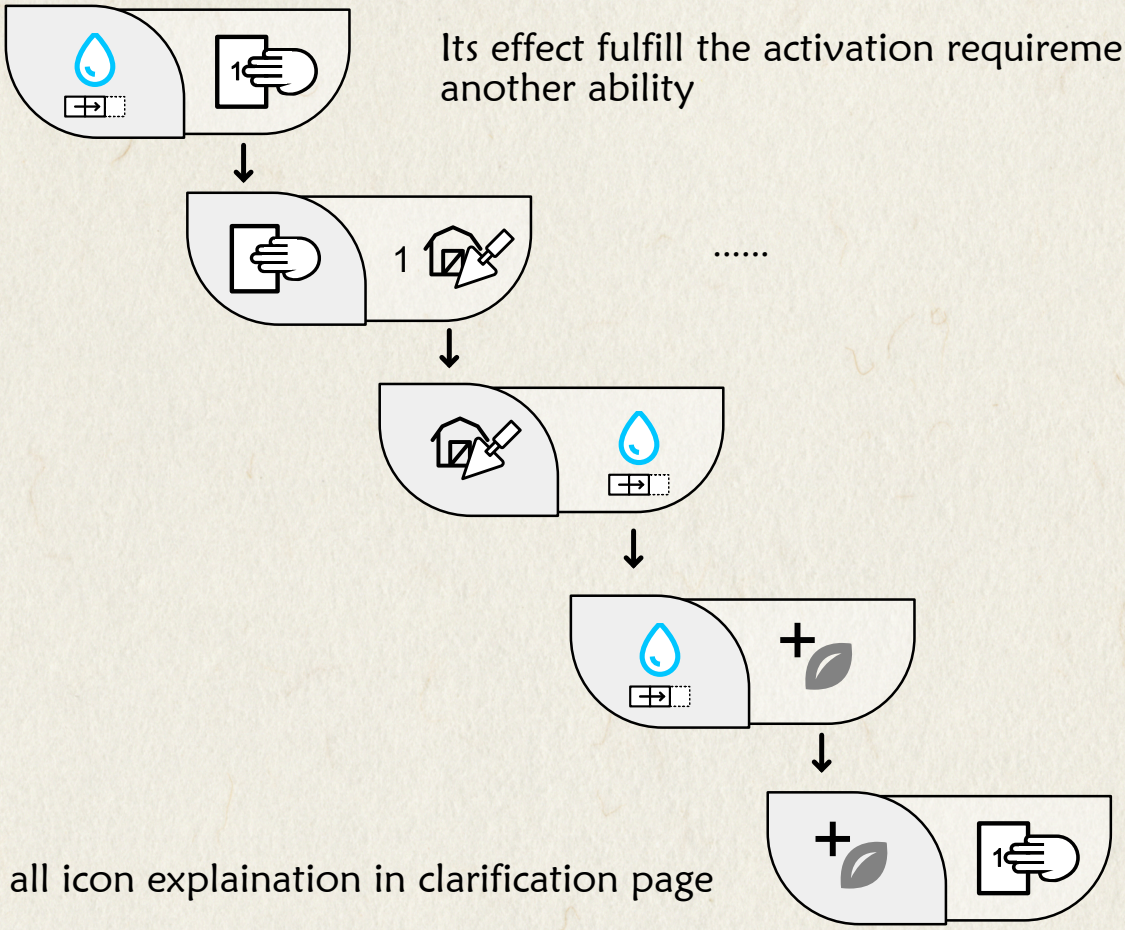
You can activate ability anytime you want in any order. We suggest you activate the ability once the activation requirement is fulfilled.

Ability Chain

When an ability is successfully activated, you can activate another ability if its activation requirement meets the previous effects, forming an ability chain.

For example:

Player activate this ability by irrigate this plant



Its effect fulfill the activation requirement for another ability

See all icon explaination in clarification page

Note:

Ability for a plant can only be activated once each turn

End of the game

When two years, 24 rounds are completed, the game ends. Count Victory Points

How to count your Victory point?

Step 1 Every plant cards (include level 2 cards) in your warehouse =1 VP

Step 2 Add victory points on level 2 plant cards that are in your warehouse.

Step 3 Add victory points on task card you complete.

For example:

If in the warehouse there are:

6 points

3 + 7 + 5 + 5 points

12 points

Total points: : 38

Colourblind Friendly -All level 2 plant card's seed requirement-

Seed

Vegetable Fruit Cereal and Nuts Spice

Level 2 card

	5 Vp	5 Vp	7 Vp	7 Vp	9 Vp
Vegetable	3	1	3	3	2
Fruit	3	1	3	2	2
Cereal and Nuts	3	1	3	4	3
Spice	4	1	4	3	3
